Writing Skill

أهم الفقرات الانشائية التي وردت بالمنهج [موضع الامتحان]

1 "Ras Mohamed National Park"

Ras Mohamed is a special place because it has beautiful nature. It is known for its clear blue sea, colorful fish, and coral reefs. Many people visit Ras Mohamed to swim, snorkel, and dive. The park is home to turtles, dolphins, birds, and many plants. There are also mountains and trees near the beach. It is a protected area, so people must keep it clean and safe.

2 "Life in my village"

Life in the village is simple but busy. Many people work hard to support their families. Some go fishing early in the morning. Others work in fish factories or fix boats. In some places, people grow fruits and vegetables. They water the plants, harvest the crops, and feed the animals. On Fridays, they go to the market to sell food. In desert areas, people make carpets and rugs. They spin and dye wool using natural colors. Every day, people help each other and enjoy the quiet life in the village.

3 "My typical school day"

My school day starts early. I wake up around 6:30 a.m., get dressed, and eat a quick breakfast. Then I go to school. The school day begins at 7:30 a.m. We stand in line, salute the flag, and sing the national anthem. After that, we go to our classrooms and start our lessons. The first subject is usually Arabic. My favorite subject is P.E. The school day ends at 1:30 p.m. I feel a bit tired, but I'm happy. I go home, eat lunch, rest a little, and then do my homework.

4 "My favorite weather"

My favorite weather is warm and sunny. I like it when the sky is clear and blue. I enjoy walking outside and seeing the birds flying. On sunny days, I can go to the park and play or read in the fresh air. I also like wearing sunglasses and sitting in the shade. Warm weather makes me feel happy and active. I think sunny days are the best!

5 "The importance of the Nile River"

The Nile River is very important to Egypt. It is the longest river in the world and brings life to the land. Many animals and birds live near the Nile, and people use the water for drinking and farming. In the past, the river flooded and gave farmers good soil to grow food like wheat and vegetables. People also travel by boats on the Nile.

6 To : seif@gmail.com
From : ali@gmail.com
Subject : A day in nature
Dear, Seif

How are you ? I want to tell you about our school trip.

We spent a wonderful day in nature during our school trip to Wadi El Rayan. On the way, we saw green farms, sand dunes, and camels. The weather was nice, and the views were beautiful. We walked near lakes and waterfalls and saw tall palm trees. We learned about the animals and plants that live there. After lunch, we went to the desert and saw the skeletons of ancient whales in Wadi El-Hitan. It was exciting to explore the natural places and learn about

history. It was a day full of fun,
learning, and nature.
Let's go there together.
Yours,
Ali

7 "Dr. Mostafa El-Sayed"

Dr. Mostafa El-Sayed is a brilliant Egyptian scientist. He was born in Egypt in 1933 and loved learning from a young age. He studied at Ain Shams University in Cairo, then went to the United States to continue his research. He became a global expert in chemistry and nanoscience, which is the study of very tiny things. One of his biggest discoveries is called El-Sayed's Rule. He also worked with gold nanoparticles that help doctors find and treat cancer.

8 "Your future job"

In the future, I want to be a doctor. I want to help people and make them feel better. Doctors work in hospitals and clinics. They treat sick people and give them medicine. I know it is a hard job, but it is very important. I will study hard to learn about the human body and how to take care of others. I hope I can save lives and make my family proud. Being a doctor is my dream job!

9 "The High Dam"

The High Dam is a huge wall that crosses the Nile River in Aswan, Egypt. Egyptians built the High Dam to solve problems with flooding and drought. The High Dam helps people in many ways. Farmers use the water for irrigation, to grow vegetables, fruits, and grains all year. The dam also sends electricity to homes, schools, hospitals, and factories across Egypt. It protects cities from

dangerous floods, and it makes sure people have water even when the river is low.

10 "A modern city"

Al Galala is a modern city in Egypt. It is built on a high plateau near Ain Sokhna. The city has clean air and beautiful sea views. It was built to reduce crowding in older cities. Now, it is one of Egypt's smart cities. Al Galala has luxury hotels, beaches, a water park, and a famous cable car. There is also a modern university where students study science, medicine, and engineering. People live and work in Al Galala. They enjoy a quiet and peaceful life.

11 "A place I visited" / "Grand Egyptian Museum"

Last month, I visited the Grand Egyptian Museum in Giza. It is a wonderful place full of history. I saw statues, golden jewelry, and even real mummies. One of my favorite things was the Lotus Chalice. It looked like a white flower and was found in King Tutankhamun's tomb. The museum uses smart screens and has amazing shows to help visitors learn. I enjoyed walking around and learning about ancient Egypt. It was a fun and interesting trip, and I hope to visit it again soon.

Listening Texts

نصوص الاستماع

Listen and write (T) True or (F) False.

PART ONE

Sample Test [1] on Unit 1

Ras Mohamed is a protected area. This means that people must take care of the land, sea, and animals. In the park, visitors learn about nature, marine life, and how to protect the environment. They also learn about the culture of the local Bedouins who live nearby.

Sample Test [2] on Unit 2

Laila is visiting her grandpa's garden. It looks incredible. Grandpa tells her that plants need water and sunlight to grow well. He grows herbs like basil and mint. He also grows hibiscus to make a tasty drink. Laila's dad drinks mint tea every evening on the balcony because it helps him relax.

Sample Test [3] on Unit 3

Dr. Mostafa El-Sayed is a brilliant Egyptian scientist! He was born in Egypt in 1933 and had a great love for learning from a young age. He studied at Ain Shams University in Cairo.

Sample Test [4] on Unit 4

Ziad is working on a history project. He is reading about materials the Ancient Egyptians used. They used stone, clay, papyrus, linen, wood, and even gold! He saw a picture of a papyrus scroll in a museum. It's unbelievable how long that material could survive.

Sample Test [5] on Units 5&6

Egypt is a sunny country, making it ideal for solar energy. One important project is Benban Solar Park near Aswan, one of the world's largest solar stations. Built between 2018 and 2019, it has over 6 million panels and provides electricity to homes, schools, hospitals, and factories.

PART TWO

A

My family is planning a trip to Egypt. First, we need to get our passports ready. Then, my father will book a hotel room. We will pack our luggage with clothes and other things we need. We want to buy a small souvenir to remember our visit. We will also buy a map to learn about the different places to visit there.

B

I'm Amina from Ezbet El Borg in Damietta. People here are fishermen. I accompany my father to catch fish early in the morning. Some villagers work in fish factories or repair boats. We eat fish almost every day and enjoy the cool breeze.

C

The Nile River is incredibly important to Egypt. It is the longest river in the world. Many different animals live in and around it, like the dangerous crocodiles and beautiful kingfishers. In the past,

the Nile used to flood every year, bringing rich soil to the land. Farmers depended on this for their crops like wheat. Ancient Egyptians also built many temples near the Nile.

D

Omar and his friends are doing research about jobs that help our community. Youssef wants to be a mechanic because he likes fixing vehicles. Omar wants to be a water resources engineer to make sure we get clean water. Salma wants to be a paramedic. Paramedics help people quickly in emergencies. They all agree that every job is important.

Using can/ can't/ able to

Can / Can't

مصدر الفعل + can / can't + inf. (كل الضمائر) فاعل

نستخدم "can" أو "can't" للتعبير عن القدرة أو عدم القدرة في الوقت الحاضر.

➤ **Example:** I **can** bring some garbage bags.

- We **can't** cross the road safely in the morning.

نستخدم "can" في صيغة السؤال لطلب الإذن أو السماح بشيء.

➤ **Example:** **Can** you hang posters around the park?

- Yes, I **can**.

- No, I **can't**.

be able to

I	→ am	} able to + inf. فعل في المصدر
He / She / It / اسم مفرد	→ is	
We / You / They / اسم جمع	→ are	

- We use "verb be (am/is/are) + able to" to show ability in the Present

نستخدم هذه الصيغة للتعبير عن القدرة أيضًا، وهي أكثر رسمية من "can" وتستخدم أحيانًا بدل

"can" خاصة في الكتابة الرسمية

➤ **Examples:** She is **able to** speak with the traffic officer.

- My sister is **able to** ride a bike.

Question

السؤال

السؤال في المضارع البسيط:

Am / Is / Are + فاعل + able to + inf.?

- **Is** she **able to** speak French?

Yes, she is. / No, she isn't.

Listen and write (T) True or (F) False:

1. Al Galala is a modern city built near the Red Sea. It offers people a chance to move away from crowded cities to a more comfortable place. Visitors can enjoy clean beaches and take a cable car to see amazing views of the sea and mountains. The city is also important for education. Al Galala is part of Egypt's future plan to create smart and sustainable cities for families.
2. People create man-made resources by using natural substances found in the world. Plastic is made from oil and used for toys and bottles. Another important material is glass, which is created by melting sand to make windows and cups. Bricks are also man-made; they are made from clay and water and used for building strong houses. These resources are very important for creating the useful objects we use every day.
3. Many useful things are made from natural materials found in our world. Glass is made from sand, while paper comes from trees. Ancient Egyptians were very skilled at using these resources. They used clay to make bricks for their buildings and homes. They also made beautiful jewelry and statues using gold and colored stones. Understanding where materials come from helps us appreciate nature and teaches us why recycling is so important.
4. Egypt has many resources like oil, metals, and natural gas. Oil is found deep under the ground in the Western Desert and Sinai. Egypt sells this oil to other countries to help its economy. Natural gas is another important resource used in our homes. We use it for cooking and heating. It also helps generate electricity for our lights and TVs. We must use these resources wisely to protect our environment.

5. Many people are now using solar power to produce electricity at home. Solar panels collect sunlight and change it into energy without harming nature. This helps save electricity and reduces the use of harmful fuels. We should all be careful by turning off devices when not in use. Small actions, such as closing the fridge quickly, can make a big difference. Saving energy protects our planet and keeps the environment clean for everyone.
6. Ancient Egyptians were very clever and used many different materials. They built large statues from granite and made bricks from clay. To write down their history, they used papyrus made from plants near the Nile. Because Egypt was very hot, people wore clothes made of linen, which is a light material from the flax plant. They also used gold and stones to make jewelry. These materials helped them create a great civilization.
7. Dr. Mostafa El-Sayed is a famous Egyptian scientist who was born in 1933 . After studying at Ain Shams University in Cairo, he moved to the United States for his research. He is an expert in chemistry and nanoscience, which is the study of very small things. He is well-known for discovering El-Sayed's Rule. His hard work in science has made him a global leader in the field of chemistry and technology.
8. Protecting the environment is an important responsibility for everyone. Air pollution is often caused by smoke from cars and factories. To help, people can choose to ride bicycles or use public transport instead of driving cars. We must also stop wasting water, like turning off the tap while brushing our teeth. These small actions by everyone can lead to big changes and help keep our planet clean and healthy.

Listening Scripts

9. The weather in Egypt is different from one city to another. In Alexandria, it is now windy and rainy with dark clouds in the sky. People stay indoors because it is cold. However, in Aswan, the weather is very hot and the sun is strong. People there wear hats and sunglasses to stay safe. Egyptians are checking the weather reports carefully to take care of their homes and their plants.
10. Laila has a small garden next to her house where she grows basil and mint. Every morning, she waters her plants and ensures they have enough sunlight. She uses natural fertilizer to keep them healthy. Laila is careful to pull out weeds because they can harm her herbs. Her mother helps her take care of the garden. In the afternoon, they enjoy drinking mint tea together in the shade.
11. Maged and his family had a fantastic day in Cairo visiting Khan El Khalili. They walked through the old streets and bought beautiful souvenirs like necklaces. They saw people baking bread and a skilled carpenter making furniture by hand. They also visited a small museum to see old Egyptian coins and clothes. It was a wonderful day because they learned many new things about the history and culture of Egypt.
12. Ali lives in a small village near the Nile River. Every morning, he watches the local fishermen use their nets to catch fish. His grandmother is very skilled; she uses a traditional loom to weave beautiful carpets from soft wool. In the afternoons, Ali plays with his friends while the adults work in the fields to harvest crops. The village is a peaceful place where people celebrate many festivals and follow strong traditions.
13. Eco-tourism is a wonderful way to travel and protect our planet at the same time. When people visit places like the Red Sea, they should be careful not to damage the coral reefs. It is important to stay in eco-hotels that use solar energy and recycle their waste. By choosing eco-tourism, we help keep the environment clean and support local people. We must all work together to save nature.

- 14.** Omar didn't want to go shopping, but his trip to Khan El Khalili changed his mind. As he walked through the busy market, he saw colorful lights and smelled fresh bread. His sister took many photos while their parents bought souvenirs. They even found a skilled carpenter making furniture by hand. Omar felt very excited. He realized the market was full of art and history, and he couldn't wait to visit again.
